LORO SEDI

Si trasmette in allegato l'avviso di recall nel quale la ditta Allergan sospende la vendita e dispone il ritiro delle scorte di protesi mammarie testurizzate ed espansori tissutali; tale sospensione deriva dalla scadenza del marchio CE per questi prodotti.

Si raccomanda di attenersi a quanto disposto nella comunicazione di Allergan, ovvero di **sospendere con effetto immediato l'utilizzo delle protesi mammarie testurizzate e degli espansori tissutali** che risultano in giacenza presso le Vostre strutture e di provvedere al loro opportuno isolamento; all'interno dell'avviso la ditta Allergan fornisce inoltre l'elenco dei prodotti interessati dall'azione di ritiro.

Considerata l'importanza dell'argomento, si invitano le SS.LL a verificare il rispetto delle indicazioni fornite dal fabbricante e a dare massima diffusione alla presente comunicazione.

L'occasione è gradita per porgere cordiali saluti.

Roma, 20 dicembre 2018

Gentile Cliente,

Allergan desidera fornirle un recente aggiornamento relativo alla disponibilità delle protesi mammarie testurizzate.

Allergan sospende la vendita e ritira le scorte rimanenti degli impianti mammari testurizzati e degli espansori tissutali, nei mercati europei nei quali è richiesto il marchio CE. La decisione di ritiro fa seguito ad una richiesta imposta dall'agenzia regolatoria francese ANSM. La sospensione delle vendite deriva dalla scadenza del marchio CE per questi prodotti.

Allergan, sebbene in disaccordo con la richiesta dell'agenzia francese (ANSM), sta collaborando pienamente con l'autorità.

Allergan sostiene il profilo di rischio/beneficio delle sue protesi mammarie.

La richiesta ANSM e l'azione di ritiro non sono basate su alcuna nuova evidenza scientifica. Inoltre, ANSM non ha identificato alcun rischio immediato per la salute delle donne con protesi mammarie testurizzate.

Il Marchio CE per le protesi Allergan a superficie liscia è stato regolarmente rinnovato da GMED. Le protesi a superficie liscia non sono dunque coinvolte e restano disponibili per la vendita.

La sicurezza del paziente e la qualità del prodotto sono le massime priorità di Allergan. Ci impegniamo a rispettare rigorosamente tutti i requisiti normativi, le evidenze scientifiche e i più alti standard produttivi di settore per i nostri prodotti.

È importante sottolineare che il profilo di sicurezza delle protesi mammarie testurizzate è ben noto e non prevede alcuna raccomandazione di espanto,

Allergan prende molto seriamente questa situazione e si impegna a fornire a tutte le parti interessate aggiornamenti tempestivi e informativi su questo argomento.

AZIONE DI RITIRO

L'azione di ritiro, come misura precauzionale, estesa a tutta Europa per consistenza delle decisioni delle varie autorità competenti e condivisa in Italia con il Ministero della Salute, riguarderà i **prodotti elencati nell'allegato 1 al presente documento**.

Nel caso risultassero in giacenza presso la Sua struttura unità di prodotto presenti nell'elenco allegato, si chiede di sospendere con effetto immediato il loro utilizzo e di isolarle opportunamente.

Le unità interessate saranno ritirate da Allergan.

Le chiediamo di indicare le quantità di prodotto impattate dal ritiro compilando l'apposita colonna nell' **allegato 1** al fine di provvedere all'azione di ritiro da parte di Allergan.
