

European programme	ERASMUS+ Key-action 1 Travelling abroad for a professional training - 2015
A professional training in Europe : who for and what for ?	<ul style="list-style-type: none"> ➤ Who for A group of 15 to 20 students ➤ What for Training abroad period, in order to open the students' minds, and make them discover new breeding methods and techniques (for cows, horses, sheeps or any grass-cating cattle).
Thème	Agricultural and farming management : animal and vegetal
Who are we ?	<p>Lycée agricole Saint Gabriel – Nantes Océan http://www.saint-gabriel-nantes-ocean.fr/web/bac-pro-cgea-sde/</p> <p>Our school is situated south of the Loire river, on two different spots, between Nantes and Pornic, North West of France, Loire-Atlantic county. We train our students on two different fields : farming management and educating horses on the one hand, service and caring professions on the other hand.</p> <p>Our classes range from grade 8 (4ème, age 13) to final year of high school (age 18). Our teaching is deeply connected with the professional breeders and trainers of the various farms around. Each student is attended to individually.</p> <p>Our school is really concerned in finding new partners abroad. We already successfully achieved, through Leonardo programme, a partnership with an italian school, in the field of service. We wish to establish a new partnership in the field of farming.</p>
What partners are we looking for ?	<ul style="list-style-type: none"> ➤ Type of structure We look for a school, or official body of agriculture. Chamber of agriculture, local authorities, schools of agriculture... ➤ What we expect We expect our partner to help us find relevant training places for our students. ➤ Reciprocity We can offer the same help in exchange, if required
What sort of training do we expect for our students ?	<ul style="list-style-type: none"> ➤ Our students From 15 to 20 students, who will be on year 2 out of 3 of their Baccaauréat (french official degree). They will have passed a BEPA, a french official degree in agriculture. Before training abroad, they will have trained in France for around ten weeks of practice on various farms (cows and horses, mainly). 90% of them are female students, 17 years old on average.

	<p>➤ Type of training places Farm breedings various categories of animals and growing varied crops.</p> <p>➤ Lenght and period of training We wish for a three-week period, preferably in March or April</p> <p>➤ Training conditions</p> <ul style="list-style-type: none"> • Each student will benefit an « Erasmus+ » grant, that will cover his transportation, accommodation and catering expenses. • This training period is part of the degree. Students are expected to acquire some professional skills, listed below. • Each student will receive a cultural and linguistic preparation, that will help him to attend his training period in the best conditions. • During the whole training period, students will be accompanied by a French tutor. <p>➤ Professional skills to be developed Gaining autonomy on most practical tasks concerning :</p> <ul style="list-style-type: none"> • Breeding : supervising, giving care to and feeding animals, • Pastures : supervising grazing animals, assessing the stature of pasture, • Use and maintenance of farm machinery, • Commercialization and marketing, learn how all that is produced on the farm will be sold on the market downstream, • Management : work planification and organization, • Professional posture <p>➤ Soft skills to be developed</p> <ul style="list-style-type: none"> • Liabilty • Flexibility • Autonomy • Organization 	
Our deadlines dates	<p>First contact visit : Autumn 2014 We would be happy to come and visit you before the end on 2014, in order to learn to know each other, and to discover the training places that would welcome our students.</p>	<p>Date to apply for a candidacy : March 2015 – Official answer : June 2015 First period of practice for the students : Spring 2016</p>
